

27th July 2018

Dear CLP Secretary and Members,

The NEC and NPF ballots are now dropping on Member's mats around the South East. The Labour Party Democracy Review may result in the disbanding or revising of the National Policy Forum at our conference this September. However the conundrum is that we do not know that for certain yet! The ballot for NPF representatives is going ahead and I would still like to ask you and your members to vote for me please.

I am a unity candidate who values our socialist, inclusive principles and I spend much of my time working for our Party by speaking at CLPs, doing some of the detailed work for the NPF, campaigning in my own and other constituencies, running campaigns, writing blogs and now working as the only Labour Councillor in Runnymede BC. I have been a loyal, contributing Labour member all my adult life despite having a really tough time as a cash strapped, hard working single parent. My background is professional although I left school at 16. You can read more about my CV at www.fionadentlabour.com

I am not on a slate because the Labour Party, in all it's glory and with all it's rough edges, is where my allegiance lies and not with any sub group.

I would also like you to nominate me for the South East Board if possible, should I be elected it would allow me to contribute to the running of our party around the region. I attach a nomination form in case. Thank you for reading!

Best regards

Fiona Dent

A handwritten signature in blue ink that reads "Fiona Dent".
